## Software Technician & Web Developer

### ABOUT ME

I am a skilled and experienced Software Technician and MERN Stack Web Developer. With passion for building Robust and Scalable high performance web applications, troubleshooting complex IT issues, and Ai automation and Integration. With a strong foundation in computer networking, system security and fullstack development, i excel at designing, building and deploying secure, efficient , and user friendly digital solutions. As a fast learner with a growth mindset, I am always eager to explore and learn new technologies, thriving in dynamic environments where I can not only adapt but also contribute meaningfully to innovation and growth. With a profound mastery of modern technologies, I design and build innovative, highly scalable, and future-proof applications that drive operational efficiency, enhance business growth, and deliver exceptional user experiences.
